

Graco® SlimFit® LX 3-in-1 Car Seat FAQs

Question: How wide is the SlimFit® LX 3-in-1 Car Seat?

Answer: The SlimFit® LX 3-in-1 Car Seat measures 19.9" at its widest point which is cupholder to cupholder when rotated outward in the use position. When the cupholders are rotated inward, the SlimFit® LX 3-in-1 Car Seat measures 19" at its widest point which is from shoulder to shoulder across the backrest. These measurements were taken with the seat cover on. With both cupholders rotated in the use position, the width at the cup holders is 17.5"

Overall Product Dimensions Cup Holders Rotated Outward (W x D x H): 19.9" x 21.5" x 25.5"

Overall Product Dimensions Cup Holders Rotated Inward (W x D x H): 19" x 21.5" x 25.5"

Question: What are the dimensions of the base on the SlimFit® LX 3-in-1 Car Seat?

Answer: The base of the SlimFit® LX 3-in-1 Car Seat is 13.75" wide and 14.75" deep.

Question: What can I put in the myPocket™ Storage Pocket?

Answer: The myPocket™ Storage Pocket can fit items less than 1 lb. With the myPocket™ on each side of your SlimFit® LX 3-in-1 Car Seat, you can store items like books, small electronics, and small toys. Never place hot, wet, or sharp objects in your myPocket™ Storage Pocket.

Question: What are the dimensions of the myPocket™ Storage Pocket?

Answer: There are two myPocket™ Storage Pocket on the SlimFit® LX 3-in-1 Car Seat. The small pocket goes on the child's right side and the large pocket goes on the child's left side. The pockets are not interchangeable.

Overall myPocket™ Dimensions Large Pocket (W x H): 6.3" x 4.6"

Overall myPocket™ Dimensions Small Pocket (W x H): 5.2" x 5.0"

Question: What is Rapid Remove™ on the SlimFit® LX 3-in-1 Car Seat?

Answer: Our Rapid Remove™ seat pad is a machine washable seat cover that removes in 60 seconds without uninstalling the seat.

Question: How much does the SlimFit® LX 3-in-1 Car Seat weigh?

Answer: The SlimFit® LX 3-in-1 Car Seat is 19.47 lbs.

Question: Can I use an inflatable seat belt to install my SlimFit® LX 3-in-1 car seat?

Answer: All-in-One car seats are approved for use with inflatable seat belts, but when installing do NOT use the shoulder belt lock-off with inflatable belt systems.

Question: What's the height of the top harness slot on the SlimFit® LX 3-in-1 car seat?

Answer: 18"

Question: What's the height of the lowest harness slot on the SlimFit® LX 3-in-1 car seat?

Answer: 7.25" with the infant insert; 8" without the infant insert

Question: What is the width of the occupant seating area on the SlimFit® LX 3-in-1 Car Seat?

Answer: The seat is 12" wide at the child's leg area and 13" at the child's shoulder area

Question: How does SlimFit® 3-in-1 Car Seat differ from SlimFit® LX 3-in-1 Car Seat?

Answer: The SlimFit® LX 3-in-1 Car Seat features storage pockets to keep the things your child would want within reach along with a Rapid Remove™ seat pad that makes it easy to clean up spills quickly without hassle.

Both car seats feature 3 modes of use from 5-100 lb (40 lb rear-facing max), steel-reinforced frame, no-retch harness, 10-position headrest, 4-position recline, push button InRight™ LATCH, integrated harness storage, infant head and body supports, level indicator, 2 cup holders, a space-saving design, and are Graco® ProtectPlus Engineered™.

Question: What does an All-in-One (3-in-1) Car Seat mean?

Answer: An All-in-One (3-in-1) Car Seat includes 3 modes to grow with your child that can seamlessly transform from a rear-facing harness to a forward-facing harness to a highback booster. Most Graco all-in-one car seats are for kids:

- 4-100+ lb
- Up to 57 inches tall

(Always check your car seat for specific height and weight limits as requirements may vary.)

Question: Are Graco® SlimFit® LX 3-in-1 car seats allowed to overlap when installed side-by-side?

Answer: Graco® SlimFit® LX 3-in-1 car seats can touch but should not overlap. Overlapping seats can interfere with the proper installation of the car seats. Car seats should not move more than 1" at the belt path when securely installed. When installing seats side-by-side, each car seat should be independently secure. Install each seat and test for tightness one at a time before moving on to the next installation. We recommend starting with installing the center seat first.
